11	Dhruvashree	Student, III Year B.Com	Member
12	Pavan N V	Student, II Year B.Com	Member

The recommended committee should be involved in curbing the menace of ragging in the institution premises, if any.

OBJECTIVES OF THE COMMITTEE:

- To aware the students of the detriminizing effect of ragging inherent in its perversity.
- To keep a continuous watch and vigil over ragging so as to prevent its occurrence and recurrence.
- To promptly and stringently deal with the incidents of ragging brought to our notice.
- To generate an atmosphere of discipline by sending a clear message that no act of ragging shall be tolerated and any act of ragging shall not go unattended and unpunished.

Agenda: Discussion on Student Grievance Awareness and Resolution Workshop

Minutes:

- Welcome & Introduction:** The meeting was called by the coordinator. The purpose of the meeting was to finalize plans for the Student Grievance Awareness and Resolution Workshop and discuss necessary arrangements.
- Discussion on the Workshop Program:** The proposal for the workshop was discussed, aiming to raise awareness among students about the grievance redressal process and promote conflict resolution skills. The coordinator provided an overview of the planned activities, including an awareness session on common student grievances. A role-play activity was proposed to simulate the grievance process, allowing students to experience both sides. A conflict resolution workshop was suggested to enhance communication skills and manage grievances constructively. It was also decided to include a grievance submission and feedback session, where students can submit grievances and receive immediate feedback.
- Date and Time:** The proposed date for the workshop is February 10, 2025, from 2:00 PM to 3:40 PM.

Conclusion: The meeting concluded with confirmation of the event's schedule and activities. The organizing team will proceed with preparations, including setting up the venue, preparing materials, and ensuring all activities are organized to encourage student participation.

Next Meeting: A follow-up meeting will be held one week before the event to review the status of preparations.

1.	Dr. Rajesha S	Principal	VSISCM	Chairman	
2.	Mr. Kiran Kumar H M	Assistant Professor	Commerce	Coordinator	
3.	Vinoda	Lecturer, Dept. of Kannada	Kannada	Member	
4.	Mahalakshmi V	Student	II Year BCom	Member	
5.	Yogesh Naik	Student	II Year BCA	Member	
6.	K M Pallavi	Student	I Year B.Sc	Member	

Minutes:

- To ascertain the number of SC/ST students in the institution.
- To create awareness about government SC/ST schemes.
- SC/ST Student Data
- Workshops on government awareness scheme proposed for SC/ST students.

Conclusion: The SC/ST meeting concluded with a reaffirmation of commitment to social justice, emphasizing inclusive development, equal opportunities, and measures to address systemic disparities for empowerment and equity.

Next Meeting: A follow-up meeting will be held 10-02-2025 to review the status of preparations

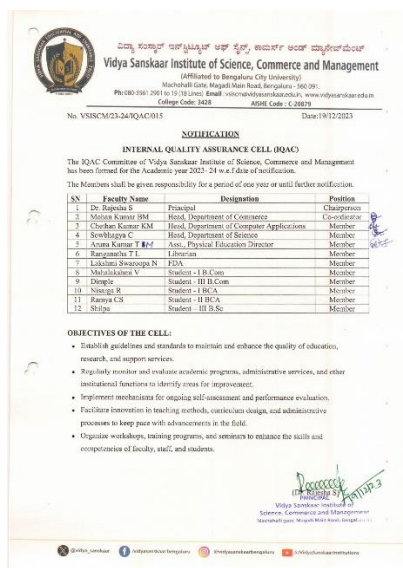

The meeting concluded with a vote of thanks by Kiran Kumar H M

Co-ordinator
SC/ST Committee

- Fire and Safety Certificate

- Hostel Facilities

NA

- Library

The Institution has central library, the reading room is adequate with seating capacity of 60, well stacked and furnished to accommodate students and provides a good environment for study. Exclusive reference section is available in the library. A visitor's book is maintained for students and staff. New arrivals of books and journals are displayed on separate stands and racks. CCTV cameras are installed in the library for strict surveillance

Library Automation: Library is partially automated. All the required book collections are updated in the LIBSOFT 9.8, Library Management software database. OPAC is used for the search of sources.

- Number of Library books/Titles/Journals available (Programme-wise)

Training Commitment from NICT				
NICT Commitment:				
NICT will provide quality training by providing experienced trainers along with NICT in handling with college Lectures. It is the responsibility of NICT to give proper training and making sure all the students clear the exams and get certified. Exams are online and will be conducted in the college campus using Internet and Computer. NICT will take the Feedback from the students and share the same to the college.				
Training Duration & Fee Structure				
#	Course Name	Certificate	Duration	Fee
1	Foundation Mathematics with AI	NICT	3 weeks	2000/-
2	AI & ML - Python Algorithms	NICT	3 weeks	2000/-
3	Python Security			
4	Python Advanced Algorithms	NICT	3 weeks	2000/-
5	Using Artificial Neural			
6				
7	AI & ML - Python Algorithms	NICT	3 weeks	2000/-
8	AI & ML - Python Algorithms	NICT	3 weeks	2000/-
9	Python Security	NICT	3 weeks	2000/-
10	Python Advanced Algorithms			

Note: GST @ 18% is applicable on all Courses.

Payment Details:
 Payment by Account Payee cheques only in favour of
 NIS NICT Computer Education Pvt Ltd
 50% on commencement of course & 50% after completion of the course.

PAN No: AACR7128N **GST No:** 29AACR018601ZY

NICT BANK DETAILS
 Bank Name: Accounts (as in Bank): NICT Computer Education Pvt Ltd
 Bank: HEPIC Bank Ltd IFSC Code: hdb0000061 Branch: Jayanagar
 A/c No: 56200 033 99735

2. Magic Bus MOU

Memorandum of Understanding (MOU)

This Memorandum of Understanding (MOU) is made on this 19/04/2024 by and between:

M. Rajesh S, represented by its Placement Officer, having its registered office at Wells Foundation Institute of Science, Commerce and Management

hereinafter called as "College" (which expression shall include its or their legal heirs, successors, legal representative(s), agent(s) of the one part:

AND:

Magic Bus India Foundation, a not for profit organisation, registered under Section 25 of the erstwhile Companies Act 1956 (CIN No: U9110MH02019PL100855), having its registered office at Reliable Plaza, Unit No-331, 2nd Floor, Plot No K 10, Kalyan Industrial Area, Village Elkhani, Navi Mumbai, Thane District - W, Maharashtra - 400708, hereinafter called as

K. Ganesh

3. Infosys MOUC

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter called "MOU") is made on 13-Mar-2024 by and between Infosys Limited (including its subsidiaries and Affiliates), a corporation organized and existing under the laws of India and having its primary place of business at Plot No. 44 & 22A, Electronics City, Hosur Road, Bangalore 560 100, India (hereinafter Infosys) and Vidya Sanskar Institute of Science, Commerce and Management (hereinafter Vidya Sanskar) (including its subsidiaries and Affiliates) organized and existing under the laws of the state of Karnataka and having its primary place of business at Marathalli Gate, Nagasri Main Road, Bengaluru 56 (hereinafter "Partner"). Partner and Infosys being referred to individually as a "Party" or collectively as the Parties.

Recitals

WHEREAS the Partner is a Vidya Sanskar Institute of Science, Commerce and Management is an Educational Institute functions with motto of serving society with Vidya and Sanskar and

WHEREAS Infosys is a global leader in consulting, technology, and outsourcing solutions and has agreed to provide their proprietary SaaS-based Platform for the Services. (hereinafter referred to as "Services")

NOW THEREFORE, for and in consideration of the mutual agreements and covenants hereinafter set forth, the Parties hereby agree as follows:

1. BROAD SCOPE OF ACTIVITIES

The objective of this MOU is to establish a written document forming a basis under which the Parties may enter into agreements to perform Services only in India as defined in Schedule A & B.

- 1.1 Both Parties understand that this is a Corporate Social Responsibility ("CSR") initiative where scope of work can be augmented further as and when required.
- 1.2 Also, necessary augmentation, in consultation with both the Parties, can be made regarding the time period of the MOU.
- 1.3 This relationship between the Parties is non-exclusive and nothing herein will prohibit either Party from entering into similar agreements with any company or entity.

2. CONFIDENTIAL AND PROPRIETARY INFORMATION

Each Party acknowledges and agrees that any and all information emanating from the other Party's business, in any form, including but not limited to information relating to the disclosing party's asset, product, or future research, development or business activities is "Confidential and Proprietary Information". Each Party agrees that it will not, directly or indirectly, in any form, disclose or divulge the Confidential and Proprietary Information of any such Confidential and Proprietary Information to any person other than an employee, agent or representative of the other party who needs such information for the performance of the obligations hereunder, unless such disclosure is in writing and is specifically authorized by the disclosing Party in writing. "Confidential and Proprietary Information" is not meant to include any information which is publicly available prior to the MOU or is made publicly available by the disclosing party without restriction. (b) is legally received by the receiving party from third parties without breaching any obligations. (c) is already in the receiving party's possession and was lawfully received from sources other than the disclosing party; or (d) is

Page 1 of 14

independently developed by the receiving party. Partner may destroy Infosys' Confidential and Proprietary Information if Partner is required to do so under applicable law, rule or order or compromised in response to a valid order by a court or required by any governmental body or regulatory legal authority, provided that Partner, where reasonably practicable and to the extent legally permissible, provides Infosys with prior written notice of the required disclosure, so that Infosys may seek a protective order or other appropriate remedy, and provided further that Partner destroys in written Confidential and Proprietary Information from a reasonably promptly if it is not to respond to the required disclosure. The secrecy of the Confidential and Proprietary Information disclosed pursuant to this MOU shall be maintained for a period of five (5) years following disclosure thereof.

3. DATA PRIVACY

3.1 The Parties hereby agree that each of it shall be acting in the capacity of an independent Data Controller and not a Joint Controller under this MOU of the other Party and shall be used for any purpose other than for the fulfillment of the purpose of this MOU and provision of the Services as contemplated herein. Infosys will maintain Personal Data for the purpose of Services contemplated herein shall adhere to the stipulations agreed under Schedule C.

3.2 We request that Personal Data provided by or on behalf of Partner or processed by Partner be provided to Infosys in a form that is compatible with all Laws, including all Laws relating to privacy or data security (b) Infosys and Partner will not be required to transfer or access the other, in determining compliance with laws. (c) In the event of any change to including changes in laws or regulations, Infosys and Partner will agree to amend the MOU and the Parties may make appropriate adjustments to the terms of the MOU and the Service, as contemplated by Infosys, and (d) Partner will accept all Partner Personal Data, that the consent to Infosys of such Partner's Personal Data by or on behalf of Partner or permitted by Partner to be provided to Infosys, or using such in connection with the Services. Partner is responsible for steps up to or Partner Data.

3.3 Infosys has established and maintains a data security program. The existence of the data security program does not mean or alter the party of their obligations outlined described in the MOU.

4. OWNERSHIP AND RESTRICTIONS

As used in this Section 4, the following terms have the respective meanings set forth below:

"Content" means any material, notice or to be known as "Infosys Sponsorship" including but is not limited to text, data, images, videos, graphics, audio or other items.

"Free Software Foundation" means an entity defined at <https://www.fsf.org/about/>.

"Partner Content" means all the Content that Partner uploads on or makes available through Infosys Bangalore.

"Infosys Content" means all the Content owned by Infosys or licensed to Infosys by any third party. "Intellectual Property Rights" means all patents, copyrights and related rights, database rights, utility models, design rights, trademarks, service marks, rights in inventions or computer programs (such as software), trade secrets and know-how, whether patentable or not, and other rights of a like nature (or other registered or unregistered) and all applications for such rights as may exist anywhere in the world.

Page 2 of 14

shall not be liable to the other Party for damages, whether in contract, tort or otherwise, arising out of or in connection with this MOU. Further, Infosys shall not be liable to the other Party for damages, whether in contract, tort or otherwise arising out of or in connection with this MOU. In no event shall either Party be liable for any indirect, special, incidental, consequential, punitive, tort or other damages, whether caused, resulting, without limitation, any damages resulting from loss of use, loss of data, loss of profits or loss of business arising out of or in connection with this MOU, or of any other obligations relating to this MOU, whether or not the Party has been advised of the possibility of such damages.

9. NOTICES

All notices to be given in connection with this MOU shall be effective upon receipt, shall be made in writing and shall be sufficiently given if personally delivered or if sent by courier or other expedient mail service, postage prepaid, addressed to the party entitled or required to receive such notice at the address for such party as follows:

To Partner:

Jeyanthan Dr. Rajesha S
Title: Principal, Vidya Sanskar Institute of Science, Commerce and Management
Address: Marathalli Gate, Nagasri Main Road, Bengaluru-56

To Infosys:

Infosys Limited
Attention: Mr. Thirumala Ansh
Senior Vice President and Head, Education Training and Assessment
Address: Plot No. 44 & 22A, Electronics City, Hosur Road, Bangalore - 560 100, India

With a copy to:

Attention:
Department: Legal Department
Address: Plot No. 44 & 22A, Electronics City, Hosur Road, Bangalore - 560 100, India
Phone: +91 80 28522051

Either Party may change such address by notice to the other Party

10. GENERAL PROVISIONS

a. **Independent Contractors.** It is expressly understood that Infosys and Partner are contractors independent of one another, and that neither has the authority to bind the other to any third person or otherwise to act in any way as the representative of the other, unless otherwise expressly agreed to in writing signed by both parties hereto.

b. **Force Majeure.** Each Party shall be excused from any failure to perform or any delay in performing its obligations under this MOU by events which arise from causes beyond a Party's reasonable control and not occasioned by its fault or negligence including but not limited to natural disasters, terrorist activities, government sanctions, economic sanctions, trade sanctions, embargo, actions or decrees of governmental bodies, communication line failures and the like of the affected Party (hereinafter referred to as a "Force Majeure Event"). A Party affected by the Force Majeure Event shall notify as soon as practicable the other Party of the occurrence of such event.

Page 6 of 14

c. **Compliance with Laws.** Each Party will comply with all applicable laws, rules and regulations in its performance of this MOU.

d. **Assignment.** Neither Party will have the right to assign or otherwise transfer its rights or obligations under this MOU without receiving the express prior written consent of the other Party. Such consent will be unreasonably withheld. Notwithstanding the above or any contrary provision contained in this MOU, the Parties shall have the right to assign this MOU, in whole or in part, to any of their affiliates, parents or subsidiaries, or to any successor by way of merger, consolidation or acquisition of a substantial amount of the assets of said corporation or its parent company.

e. **Dispute Resolution and Arbitration.** In the event of any dispute arising out of or in connection with this MOU, the Parties will attempt in good faith to resolve such dispute through negotiations between them. Where the parties are unable to resolve a dispute by means of negotiation, the dispute shall be finally settled by arbitration conducted in accordance with the rules of the Arbitration & Conciliation Act, 1996 as in effect on the Effective Date of this MOU. Such dispute will be resolved by a single arbitrator appointed by the parties after mutual agreement. The seat of arbitration will be Bangalore India. The language of the arbitration will be English. Each party will bear its own expenses in the arbitration and will share equally the costs of the arbitration; provided, however, that the arbitrator may, in their discretion, award costs and fees to the prevailing party. Judgment upon the award may be entered in any court having jurisdiction over the award or over the applicable party or its assets.

f. **Governing Law.** This MOU, and any dispute arising from the relationship between the parties to this MOU, shall be governed by laws of India, excluding any laws that direct the application of another jurisdiction's laws.

g. **Non-Renew.** Except as otherwise expressly agreed to by the other Party in writing, Partner agrees not to directly or indirectly or through its agents solicit or hire for employment any of other Party's employees involved in the provision of services under this MOU during the term of this MOU and for a period of one (1) year following its completion or termination except where such hiring is pursuant to a lawful advertisement to general public.

IN WITNESS WHEREOF, the parties have executed this MOU, by their authorized representatives as of the date first written above.

1. **Information Technology**
Information Technology (IT) is the use of computers and other electronic devices to store, retrieve, and process information. It is a broad field that encompasses a wide range of technologies, including hardware, software, and networks. IT is used in many different ways, from personal communication to business operations.

2. **Computer Hardware**
Computer hardware refers to the physical components of a computer system. This includes the central processing unit (CPU), memory, storage devices, and input/output devices. Hardware is the foundation of any computer system.

3. **Software**
Software is the collection of instructions that tell a computer how to perform a specific task. It is divided into two main categories: operating systems and applications. Operating systems manage the hardware and provide a platform for other software to run. Applications are programs that perform specific tasks for the user.

4. **Networking**
Networking is the process of connecting multiple computers or other devices to share resources and information. This can be done locally (within a single building) or over long distances (via the Internet). Networking is essential for many modern businesses and organizations.

5. **Security**
Security is the practice of protecting information and systems from unauthorized access, use, disclosure, disruption, modification, or destruction. It is a critical concern for all organizations that handle sensitive data. Security measures include firewalls, antivirus software, and encryption.

6. **Cloud Computing**
Cloud computing is the delivery of computing services over the Internet. These services can include storage, processing, and applications. Cloud computing allows users to access resources on-demand and scale their usage as needed. It is a key technology for many modern businesses.

7. **Mobile Computing**
Mobile computing refers to the use of computers and other devices that can be used anywhere and at any time. This includes smartphones, tablets, and laptops. Mobile computing has revolutionized the way we work and live, allowing us to stay connected and productive on the go.

8. **Data Analytics**
Data analytics is the process of examining large volumes of data to identify patterns, trends, and insights. It is used in many different fields, from marketing to healthcare. Data analytics helps organizations make better decisions and improve their performance.

9. **Artificial Intelligence**
Artificial intelligence (AI) is the simulation of human intelligence in machines. This includes tasks such as learning, reasoning, and problem-solving. AI is a rapidly growing field with many potential applications, from autonomous vehicles to personalized medicine.

10. **Blockchain**
Blockchain is a distributed ledger technology that allows for secure and transparent transactions. It is the underlying technology for cryptocurrencies like Bitcoin. Blockchain has many other potential applications, including supply chain management and digital identity.

11. **Internet of Things (IoT)**
The Internet of Things (IoT) is the network of physical objects (things) that are embedded with sensors, software, and other technologies to connect and exchange data with other devices and systems over the Internet. IoT is a key technology for many smart cities and industrial applications.

12. **Augmented Reality (AR)**
Augmented reality (AR) is a technology that overlays digital information onto the real world. This can be done using smartphones, tablets, or special AR glasses. AR has many potential applications, from education to entertainment.

13. **Virtual Reality (VR)**
Virtual reality (VR) is a technology that creates a simulated environment that can be experienced through a headset and other devices. VR is used in many different ways, from gaming to training simulations.

14. **Robotics**
Robotics is the study of robots and the technology that allows them to perform tasks. Robots are used in many different industries, from manufacturing to healthcare. Robotics is a rapidly growing field with many potential applications.

15. **Space Technology**
Space technology refers to the technologies used in space exploration and satellite communication. This includes rockets, spacecraft, and satellites. Space technology is a key area of research and development for many countries.

16. **Biotechnology**
Biotechnology is the use of biological processes and organisms to create products and services. This includes the production of pharmaceuticals, food, and biofuels. Biotechnology is a rapidly growing field with many potential applications.

17. **Environmental Technology**
Environmental technology refers to the technologies used to protect the environment and improve sustainability. This includes renewable energy, waste management, and water conservation technologies. Environmental technology is a key area of research and development for many countries.

18. **Quantum Computing**
Quantum computing is a new type of computing that uses the principles of quantum mechanics to perform calculations. It has the potential to revolutionize many fields, from cryptography to materials science.

19. **Autonomous Vehicles**
Autonomous vehicles are cars that can drive themselves without the need for a human driver. They use sensors, cameras, and artificial intelligence to navigate and avoid obstacles. Autonomous vehicles are a key area of research and development for many companies.

20. **Space Exploration**
Space exploration is the study of outer space beyond Earth's atmosphere. It includes the study of planets, moons, and other celestial bodies. Space exploration is a key area of research and development for many countries.

21. **Artificial Intelligence**
Artificial intelligence (AI) is the simulation of human intelligence in machines. This includes tasks such as learning, reasoning, and problem-solving. AI is a rapidly growing field with many potential applications, from autonomous vehicles to personalized medicine.

22. **Blockchain**
Blockchain is a distributed ledger technology that allows for secure and transparent transactions. It is the underlying technology for cryptocurrencies like Bitcoin. Blockchain has many other potential applications, including supply chain management and digital identity.

23. **Internet of Things (IoT)**
The Internet of Things (IoT) is the network of physical objects (things) that are embedded with sensors, software, and other technologies to connect and exchange data with other devices and systems over the Internet. IoT is a key technology for many smart cities and industrial applications.

24. **Augmented Reality (AR)**
Augmented reality (AR) is a technology that overlays digital information onto the real world. This can be done using smartphones, tablets, or special AR glasses. AR has many potential applications, from education to entertainment.

25. **Virtual Reality (VR)**
Virtual reality (VR) is a technology that creates a simulated environment that can be experienced through a headset and other devices. VR is used in many different ways, from gaming to training simulations.

26. **Robotics**
Robotics is the study of robots and the technology that allows them to perform tasks. Robots are used in many different industries, from manufacturing to healthcare. Robotics is a rapidly growing field with many potential applications.

27. **Space Technology**
Space technology refers to the technologies used in space exploration and satellite communication. This includes rockets, spacecraft, and satellites. Space technology is a key area of research and development for many countries.

28. **Biotechnology**
Biotechnology is the use of biological processes and organisms to create products and services. This includes the production of pharmaceuticals, food, and biofuels. Biotechnology is a rapidly growing field with many potential applications.

29. **Environmental Technology**
Environmental technology refers to the technologies used to protect the environment and improve sustainability. This includes renewable energy, waste management, and water conservation technologies. Environmental technology is a key area of research and development for many countries.

30. **Quantum Computing**
Quantum computing is a new type of computing that uses the principles of quantum mechanics to perform calculations. It has the potential to revolutionize many fields, from cryptography to materials science.

31. **Autonomous Vehicles**
Autonomous vehicles are cars that can drive themselves without the need for a human driver. They use sensors, cameras, and artificial intelligence to navigate and avoid obstacles. Autonomous vehicles are a key area of research and development for many companies.

32. **Space Exploration**
Space exploration is the study of outer space beyond Earth's atmosphere. It includes the study of planets, moons, and other celestial bodies. Space exploration is a key area of research and development for many countries.

33. **Artificial Intelligence**

Biotechnology is the use of biological processes and organisms to create products and services. This includes the production of pharmaceuticals, food, and biofuels. Biotechnology is a rapidly growing field with many potential applications.

65. **Environmental Technology**
Environmental technology refers to the technologies used to protect the environment and improve sustainability. This includes renewable energy, waste management, and water conservation technologies. Environmental technology is a key area of research and development for many countries.

66. **Quantum Computing**
Quantum computing is a new type of computing that uses the principles of quantum mechanics to perform calculations. It has the potential to revolutionize many fields, from cryptography to materials science.

67. **Autonomous Vehicles**
Autonomous vehicles are cars that can drive themselves without the need for a human driver. They use sensors, cameras, and artificial intelligence to navigate and avoid obstacles. Autonomous vehicles are a key area of research and development for many companies.

68. **Space Exploration**
Space exploration is the study of outer space beyond Earth's atmosphere. It includes the study of
