Words from the Management,

Dear Readers,

We are delighted to present the latest edition of our college newsletter, Upasana. This edition offers a comprehensive glimpse into the months of April and May, capturing the vibrant ideas, talents, and accomplishments of our esteemed faculty, dedicated staff, and dynamic students.

Our community has consistently demonstrated that excellence is achievable through determination and motivation. However, to truly nurture innovation and progress, we must overcome the mindset that hinders creative thinking. If we aspire to be the architects of a modern India and contribute meaningfully to its growth, it is imperative that we move beyond the "Jugaad attitude." Instead, we must embrace innovation, community engagement, research, and development - key pillars that will shape our nation's future.

At VSPUC, we are committed to change and continuous improvement. Through academics, we are actively developing curricula that address current and emerging needs. We are deeply grateful to all our stakeholders—parents, students, and alumni—for their unwavering support and valuable contributions toward the growth of our institution.

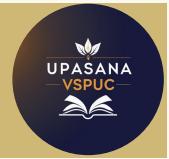

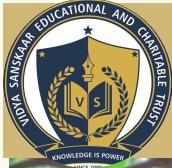

A special word of appreciation goes to the editorial team for their dedication and hard work in bringing this newsletter to life. Your effort and commitment have made this possible.

Director's (Academics) Note,

In today's competitive world, Upasana serves as an excellent platform for our students to express themselves. As we nurture young minds, it is essential to provide opportunities where ideas can be shared, achievements celebrated, and perspectives exchanged. I congratulate the editorial team of Upasana for their commendable efforts, which will undoubtedly contribute to enhancing our institutional culture.

Wishing everyone all the best!

Dear Students, Faculty Members and
Well-Wishers,

It is with immense joy and pride that I extend my heartfelt congratulations on the launch of the inaugural edition of "Upasana", the official newsletter of Vidya Sanskaar Pre-University College. The name Upasana, meaning worship, is inspired by the noble ideals enshrined in the Preamble of our Indian Constitution — "liberty of thought, expression, belief, faith, and worship." In the context of our academic journey, Upasana signifies more than a spiritual practice; it is the dedication and reverence we offer towards knowledge, learning, and personal growth.

The Pre-University stage marks a crucial turning point in every student's life — a time when choices shape careers, aspirations meet direction, and disciplines of study begin to define futures. In this sacred journey, let us remember that Work is Worship, and that the pursuit of Jnana (knowledge) is the highest form of Upasana.

This newsletter stands as a platform where our students can express their talents, showcase their innovations, and share their reflections. It is a space where intellect meets imagination and creativity finds its voice. Upasana will reflect not only academic excellence but also the values, dreams, and determination of our young minds.

May this initiative grow to promote inclusiveness, equality, and equity — empowering each student to contribute meaningfully to the college and to society at large.

My sincere appreciation goes out to the editorial team, faculty, and students who have nurtured this vision. I wish Upasana great success in the years to come, and I look forward to witnessing the brilliance that will unfold through its pages.

**With best wishes and blessings,
Dr. Satish M Bejjihally**

Principal's Note

Over the years, as a teacher, I have realized that if the fertile soil of the mind is enriched with the values of love, kindness, and patience, the saplings of good education and character will grow into strong trees and bear good fruit. Just as each fruit is unique with its own flavor and benefits, in the same way, every individual is unique and carries within them a hidden silver lining.

Vinay G V

Once you discover your inner strength, no storm can shake the boat of your life, as you will know how to face every situation in your own way.

"The aim of education should be to teach the child to think, not what to think."

This is the principle we follow at VSPUC. We believe in holistic education—inculcating Vidya and Sanskaar—where education goes beyond knowledge and empowers students to be self-reliant and global citizens. We are truly grateful to the parents for their unwavering support and trust in us.

"UPASANA" is a reflection of what we believe defines us. It promises to bring forth the most unforgettable and cherished moments of college life, along with the enthusiastic write-ups of our young writers. It is indeed a sincere attempt to give our budding talents a platform to express their creativity.

I congratulate the editorial team and all my students for their generous contribution of time and effort to "UPASANA."

With Best Wishes,
Vinay G V
