Meet Our Editorial Team...

Patrons:

1. H B Shyamsundar, Secretary, VSECT
2. M K Ramaswamy, Director (Academics), VSECT

Advisors:

1. Dr. Satish M Bejjihally, CEO, VSECT
2. Harshith Gowda S, EDL, VSECT

Core Members:

1. Vinay G V, Principal
2. Shilpa T, Coordinator (Com. & Lang.)

Members:

1. Bhavya M K, Lecturer in English
2. Gangaraju D, Lecturer in Kannada
3. Julio Sterlin J S, Lecturer in Computer Science
4. Rajesha H N, Lecturer in Hindi
5. Thippeswamy, Librarian
6. Lavanya B T, Lecturer in Business Studies
7. Rushika L, Lecturer in Business Studies
8. Bhoomika R M, FDA
9. Sushma, FDA

ComXplore- Commerce Exhibition

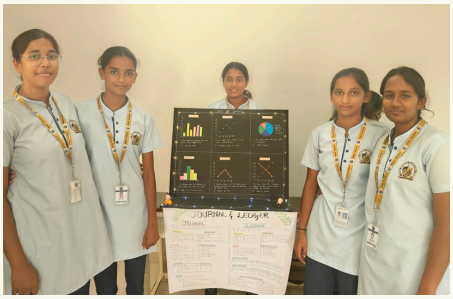

BEYOND THE CLASSROOM: COMMERCE COMES ALIVE AT VSPUC

An Exhibition of Ideas, Innovation, Teamwork and Confidence

The Commerce Exhibition was a vibrant expression of this approach, giving students an opportunity to transform academic concepts into engaging presentations and demonstrate their talent beyond the conventional classroom.

More than a collection of projects, it was a showcase of student initiative, creativity and enterprise.

From Concepts to Application

The exhibition enabled students to explore these areas through research, interpretation and presentation. Each exhibit represented careful preparation and a conscious effort to connect academic concepts with practical situations. Students moved beyond simply gathering information; they worked to understand it and present it in ways that could engage an audience.

The Strength of Collaboration

Students brainstormed, divided responsibilities, coordinated resources and worked towards a common objective. Along the way, they learnt the value of accountability, time management and respect for different perspectives.

Finding Their Voice

The presentation stage brought another dimension to the experience.

Students explained their exhibits, responded to questions and interacted with visitors. These interactions encouraged them to organise their thoughts, speak clearly and respond with confidence.

For many, it was an opportunity to step forward, take ownership of their work and discover the importance of effective communication.

ComXplore- Commerce Exhibition

Skills Beyond the Syllabus

These experiences strengthened valuable competencies such as initiative, leadership, organisation, problem-solving and adaptability—qualities that complement academic achievement and prepare students for future academic and professional environments.

A Reflection of Student Potential

The exhibition offered a glimpse of the learners VSPUC seeks to nurture: curious thinkers, capable communicators, responsible team members and confident young individuals.

For the institution, it was a meaningful reflection of experiential learning; for the students, it was an opportunity to discover what they could accomplish when given responsibility and a platform.

What Remains After the Exhibition

When the displays were taken down, the most valuable outcomes were not the exhibits themselves, but the experiences gained in creating them.

Students left with greater confidence in presenting their ideas, a deeper appreciation of collaboration and a stronger understanding of how classroom knowledge can connect with the world beyond it.

The Commerce Exhibition was, ultimately, a celebration of student potential in action.

At VSPUC, Commerce is not confined to the syllabus—it is explored, applied, communicated and brought to life.

Public Speaking Workshop: Finding the Confidence to Speak

"Knowledge gains greater value when it can be communicated effectively".

The Public Speaking Workshop provided students with a platform to develop this essential skill. Through guided activities and practice, students explored ways to organise their thoughts, speak with clarity, engage an audience and present ideas with greater confidence.

The workshop encouraged students to move beyond the fear of making mistakes and focus on the purpose of communication—to connect, express and be understood.

For Commerce students, this skill has particular relevance. Whether presenting a business idea, participating in a discussion, attending an interview or leading a team, the ability to communicate with confidence is an important part of professional growth.

Financial Literacy Awareness: Understanding Money, Building Responsibility

The Financial Literacy Awareness Programme encouraged students to look at money not merely as a numerical concept, but as an area requiring awareness, responsibility and informed decision-making.

The programme created opportunities for students to understand the importance of financial awareness in everyday life and appreciate the need for thoughtful choices regarding saving, spending, planning and financial security.

For Commerce students, such exposure also strengthened the connection between academic concepts and their practical relevance in personal and professional life.

FROM CLASSROOM TO CAREER

The world of careers is changing rapidly. Academic knowledge provides the foundation, but future success also depends on communication, digital literacy, problem-solving, adaptability, financial awareness and the ability to learn continuously.

For today's students, choosing a career is not simply about selecting a course. It is about understanding your interests, abilities, skills and opportunities.

The Career Formula

CAREER DIRECTION=
INTEREST + APTITUDE+ SKILLS + QUALIFICATION + OPPORTUNITY

Career Pathways for Commerce Students

Interest	Possible Pathways
Numbers & Accounts	CA, CMA, Finance, Banking
Business & Management	B.Com, BBA, MBA, Management
Economics	Economics, Finance, Policy, Research
Law	B.Com + LLB, Corporate Law
Technology	FinTech, Business Analytics, Digital Business
Creativity & Communication	Marketing, Media, Advertising, PR
Entrepreneurship	Start-up, Family Business, Social Enterprise

Remember:

Don't choose a career because it is popular. Choose a direction that matches your strengths, interests and willingness to learn.

MONEY MATTERS

Financial Literacy for Every Student

Financial literacy is not only for accountants and investors. Every student will eventually earn, spend, save, borrow and make financial decisions.

Learning to manage money early can help us become more responsible adults.

NEED OR WANT?

NEED	WANT
Textbooks	Latest gadget
Basic stationery	Trendy accessories
Essential travel	Frequent eating out
Emergency expenses	Impulse purchases

THE 5 MONEY HABITS

1. EARN

Understand where money comes from.

2. SPEND

Spend on needs before wants.

3. SAVE

Keep aside money for future needs.

4. PROTECT

Be careful with OTPs, PINs, passwords and suspicious links.

5. GROW

Learn the basics of investing before taking financial decisions.

MONEY RULE

Before you spend, ask: "Do I need it, or do I simply want it?"

Save regularly, begin early, maintain an emergency fund, control unnecessary spending, and choose safe methods for short-term savings.

SCIENCE IN ACTION

Science is not confined to laboratories. It is happening around us every day.

SCIENCE CYCLE

QUESTION → HYPOTHESIS → EXPERIMENT → OBSERVE → CONCLUDE

SCIENCE IS…

Not just memorising facts.

SCIENCE = CURIOSITY + OBSERVATION + QUESTIONING + EVIDENCE

AI & TECHNOLOGY

TOMORROW, TODAY

Artificial Intelligence is rapidly becoming part of education, business, communication, entertainment and everyday life.

AI CAN HELP STUDENTS

Brainstorm ideas
Explain difficult concepts
Summarise information
Generate practice questions
Improve drafts
Translate content
Organise information

STUDENTS MUST STILL

Think
Verify
Question
Analyse
Create
Make decisions

THE GOLDEN RULE

Use AI as a learning assistant—not as a replacement for learning.

AI CHECKLIST

Before submitting AI-assisted work:

□ Did I understand the answer?
□ Did I verify important information?
□ Did I add my own thinking?
□ Did I follow academic-integrity guidelines?

SPEAK WITH CONFIDENCE

Good communication is more than speaking fluent English. It means expressing ideas clearly, listening carefully, understanding others and responding appropriately.

THE 5 Cs OF COMMUNICATION

- CLEAR
- CONCISE
- CONFIDENT
- COURTEOUS
- CONVINCING

Remember:

Good communication begins with good listening.

LISTEN → THINK → SPEAK → CHECK

MIND MATTERS

Academic life can sometimes feel overwhelming. Examinations, expectations, comparison, assignments and uncertainty about the future can create pressure.

Feeling stressed at times is part of life. What matters is learning healthy ways to respond.

WHEN ACADEMIC PRESSURE BUILDS

PAUSE --- BREATHE --- PRIORITISE

TAKE ONE TASK AT A TIME--- TALK TO SOMEONE YOU TRUST

SMALL HABITS MATTER

1. Maintain a regular sleep routine.
2. Take short breaks during long study sessions.
3. Avoid unnecessary screen time while studying.
4. Stay physically active.
5. Talk about problems instead of keeping everything inside.
6. Ask for help when needed.

THE STUDENT WELL-BEING BALANCE

SLEEP + NUTRITION + STUDY + MOVEMENT + RELAXATION + CONNECTION

DISCIPLINE TODAY, SUCCESS TOMORROW

Discipline is not about punishment. It is about learning to take responsibility for our choices. A disciplined student does not need someone constantly watching them.

THE DISCIPLINE FORMULA

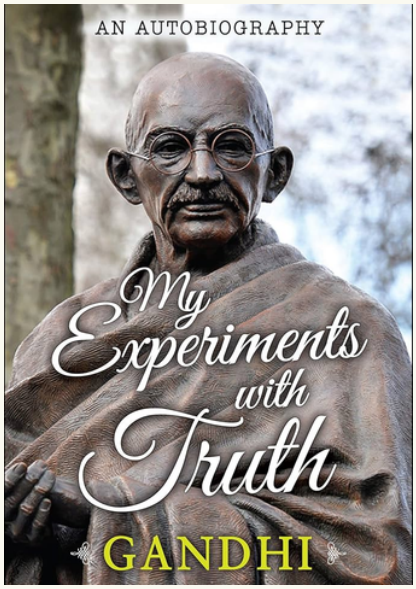

SMALL ACTIONS + CONSISTENCY = STRONG HABITS

Ask Yourself

“What is one small habit I can improve today?”

BOOK OF THE MONTH: My Experiments with Truth

Author: Mahatma Gandhi

The Story of My Experiments with Truth – Mahatma Gandhi

What if becoming a better person was not about being perfect, but about learning from every experience?

In The Story of My Experiments with Truth, Mahatma Gandhi shares not only the important moments of his life, but also his struggles, mistakes, doubts, choices and lessons. What makes the book meaningful is its honesty—it shows us that personal growth is a journey of continuous learning.

The message is simple and powerful:

our character is shaped by the small choices we make every day.

Be Honest — Accept yourself and your mistakes.

Learn from Mistakes — Every mistake can become a lesson.

Practise Discipline — Small consistent actions build strong habits.

Stand for What Is Right — Have the courage to follow your values.

Keep Improving — Growth begins when we are willing to change.

Respect Others — Character is reflected in how we treat people.

Turn Values into Actions — What we practise shapes who we become.

"Be the change you wish to see in the world."

THE BIG LESSON

We don't have to be perfect.

We have to be willing to learn, reflect and become better every day.

Think → Try → Make Mistakes → Reflect → Learn → Improve

GANDHIAN FACTS: Little Facts, Big Lessons

- Born: 2 October 1869, Porbandar, Gujarat
- Full Name: Mohandas Karamchand Gandhi
- Nickname: Mahatma — meaning "Great Soul"
- Profession: Lawyer, social reformer and freedom movement leader
- Book: The Story of My Experiments with Truth — his autobiography
- Core Principles: Truth (Satya) and Non-violence (Ahimsa)
- Simple Living: He promoted simplicity, self-reliance and the dignity of labour.
- Legacy: His ideas of non-violence and peaceful resistance influenced movements for justice and freedom across the world.

GK CHALLENGE

10 Questions | Answers at the End

1. Which day is observed as Indian Air Force Day?
A) 2 October B) 8 October C) 15 August D) 26 January
2. Which institution is India's central bank?
A) SEBI B) NABARD C) RBI D) SBI
3. What does GDP stand for?
A) Gross Domestic Product B) General Development Plan
C) Gross Development Percentage D) Government Domestic Policy
4. Which Indian mission successfully demonstrated a soft landing near the Moon's south polar region?
A) Mangalyaan B) Chandrayaan-1 C) Chandrayaan-2 D) Chandrayaan-3
5. Which organisation is responsible for India's space programme?
A) DRDO B) ISRO C) CSIR D) BARC
6. Which payment system has become a major part of India's digital-payment ecosystem?
A) UPI B) ATM C) NEFT D) Cheque
7. Which international organisation has its headquarters in New York?
A) UNESCO B) WHO C) United Nations D) WTO
8. Which sector is most directly associated with monetary policy and the repo rate in India?
A) Banking and finance B) Agriculture C) Tourism D) Transport
9. Which of the following is a renewable source of energy?
A) Coal B) Petroleum C) Solar energy D) Natural gas
10. World Mental Health Day is observed on:
A) 5 October B) 10 October C) 15 October D) 20 October

ANSWERS

1-B | 2-C | 3-A | 4-D | 5-B | 6-A | 7-C | 8-A | 9-C | 10-B

Challenge: How many did you get right?

8–10: Excellent!

5–7: Good going!

Below 5: Time to explore beyond the textbook!

RIDDLE CORNER

Think. Guess. Smile.

1. I have keys but no locks. I have space but no room. You can enter, but you cannot go inside.
What am I?
2. The more you take, the more you leave behind.
What am I?
3. I speak without a mouth and hear without ears. I have no body, but I come alive with sound.
What am I?
4. I am always in front of you, but you can never see me.
What am I?
5. I have hands but cannot clap. I have a face but cannot smile.
What am I?
6. What gets wetter the more it dries?
What am I?
7. I have many words but never speak. I have many pages but am not a tree.
What am I?
8. I can be cracked, made, told and played.
What am I?
9. I am lighter than a feather, but even the strongest person cannot hold me for long.
What am I?
10. What has a beginning but no end, a home but no family, and a road but no travellers?
What am I?

ANSWERS

Keyboard 2. Footsteps 3. Echo 4. The future 5. Clock 6. A towel 7. A book 8. A joke 9. Breath 10. A map

Can You Crack It?

1. Three friends pay ₹30 for a meal. The actual bill is ₹25, so the waiter returns ₹5.

Each friend takes ₹1, and the waiter keeps ₹2.

So each friend paid ₹9.

3 × ₹9 = ₹27

Waiter kept ₹2 → ₹29

Where did the missing ₹1 go?

2. What five-letter word becomes shorter when you add two letters to it?

Answers:

1. There is no missing ₹1. The ₹27 already includes the waiter's ₹2. The correct calculation is ₹25 bill + ₹2 waiter + ₹3 returned = ₹30.

2. Word Mystery: SHORT → add "ER" → SHORTER.
